

## Quotation Call for Installation of Delta Indoor Video Wall

**Subject: Request for Quotation (RFQ) for Installation of Delta Make Indoor Video Wall at ICAI Bhubaneswar**

Dear Supplier,

ICAI Bhubaneswar invites quotations from reputed suppliers for the installation of a Delta Make Indoor Video Wall. Below is the scope of work:

### Scope of Work

S. No	Task Description	Details
1	Site Preparation	Assess and prepare the installation site, ensuring necessary power and network connections are available.
2	Material Delivery & Inspection	Receive and inspect all components, including LED panels, mounting structures, and control systems.
3	Mechanical Structure Installation	Install MS/Aluminum extrusion structure to mount the LED walls, ensuring precision alignment.
4	Bracket Installation	Secure brackets with MS powder coating to fasten the mounting structure.
5	Video Wall Panel Installation	Mount and align Delta LED cabinets to achieve seamless display output.
6	LED Control System Setup	Configure LED control system, including RJ45/USB ports, HDMI, DP, VGA, SDI inputs, and DVI/RJ45 outputs.
7	Power & Network Cabling	Connect power supply (AC 220V-240V) and ensure seamless network connectivity for the video wall.
8	Calibration & Configuration	Perform LED tile/cabinet calibration, including brightness uniformity adjustments using certified brightness meters.
9	Software Integration	Integrate video wall with necessary software for seamless switching, scaling, and PIP functionality.

10	<b>Testing &amp; Commissioning</b>	Conduct system testing to verify resolution, brightness, refresh rate, and performance under different conditions.
11	<b>Training &amp; Documentation</b>	Provide user training on operation, maintenance, and troubleshooting; submit installation & calibration reports.
12	<b>Final Handover</b>	Handover the installed system to ICAI Bhubaneswar with warranty documents and support details.

**Additional Requirements:**

- The installation should comply with BIS, OHSAS 45001:2018, ISO 9001:2015, and ISO 14001:2015 standards.
- All components must be from the same OEM for smooth integration.
- Ensure environmental and safety guidelines are met during installation.
